PORTABLE BARRICADES

These barricades are easily moved by hand, without engineering support, to provide excellent protection in any application. Simply position the barricades and fill with water or sand for ballast, as determined by the threat level. Empty and recover for repositioning. The barricades are made of rotationally molded plastic and is therefore maintenance free, with no need of paint and no metal to rust. Common colors are Safety Yellow and Olive Drab, but are available in most any solid color. When positioned with ballast these barricades provide protection and security for flight lines, gate approach, roads, bridges, crowd control and many others.

These products are being purchased in depth by all branches of the military, various guard units, border patrols, U.S. embassies, airports and in civilian applications, both in the U.S. and overseas. There have been Live Fire tests conducted by various military units with ballistic protection of multi-hits up to 9mm with water, and 5.56mm and 7.62mm with sand, blast mitigation of 2 Lbs. of C4 from 4 feet, hand grenade from 2 feet, 7 rounds of 40mm flechette canister at 50 meters and a .50 Cal Dearermer with wedge slug fired at 2 feet, with no through penetration, no rebound or ricochet.

These barricades are proven to be quick and effective, safety and anti-terrorism tools. These units are currently in production and can be shipped within thirty days of placing an order. **ALL COLORS ARE AVAILABLE.**

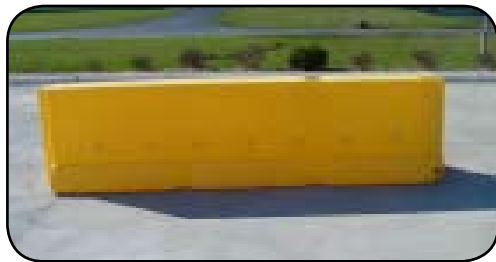

24 x 8 Portable Safety Barricade:

Product Information:

Size: 24" (H) x 8' (L)
Weight Empty: 118 lbs
Weight Full: Sand: 4095 lbs Water: 1620 lbs
Gallon Capacity: 180 gallons water
NSN and Part Numbers Dependent on Requested Color
GSA: GS-07F-0273J

31 x 10 Portable Safety Barricade:

Product Information:

Size: 31" (H) x 10' (L)
Weight Empty: 150 lbs
Weight Full: Sand: 5509 lbs Water: 2242 lbs

BARRICADE SAFETY HARNESES / STRAPS

CBP Safety Harnesses are manufactured from plastic to custom fit CBP Barricades. Harness part #2134 will fit the 24"x8' barricade. Harness part #2135 will fit the 31"x10' barricade and harness part#2137 will fit the 42"x8' barricade. Note that all harnesses have a break strength of 25,000PSI with the exception of harness part #2136 for the 31"x10' barricade which has a break strength of 50,000 psi.

A pull test was conducted in Yuma, Arizona by the U.S. Army to approve the use of the harness for the Portable Vehicle Arresting Barrier (PVAB) system. The harness test was successful and exceeded expectations. The barricades can be hooked to a post or similar stationary object and can be hooked end to end for a continuous line protection.

31" x 10" Harness:

Product Information:

Size: 31"x10"
Break Strength: 25,000 and 50,000 PSI
Part Numbers Dependent on Requested Break Strength
