

BUNKER CHECKPOINT

The Bunker/Checkpoint is designed to enable the combat troops to secure and hold a specific objective. The objective can be in various forms of checkpoints, road intersections, airfields, bridges, supply dumps, and troop encampments in various threat level situations. This unit can be erected quickly and is portable, utilizing the least amount of manpower with very limited engineering support. The 18" of overhead cover and 360 degrees protection provides the greatest amount of soldier protection enabling the troops to take cover quickly and efficiently.

There have been live fire tests conducted with .50 cal & 155 with no through shrapnel or fragmentation.

The Bunker/Checkpoint is portable, all weather, all terrain and reusable, adapting to any basic terrorism at most threat levels providing exceptional force protection. Relocation is easy by simply removing the sand media used as ballast and disassembling the unit. In a short time you'll be ready to deploy.
